Examiner's Reasons for Allowance

This application is a division of Application No. 10/127180.

The following is an examiner's statement of reasons for allowance:

Claims 23-28 (renumbered as 1-6) are allowed. Presently claimed invention is drawn to a method of treating a skin condition selected from the group consisting of wrinkles, lack of adequate skin firmness, lack of adequate dermal hydration and insufficient sebum secretion, which comprises administering to a patient with said skin condition an effective amount of (20S)-1alpha-hydroxy-2alpha-methyl-19-nor vitamin D₃ having the formula in claim 1. The closest prior art is DELUCA et al (US Patent No. 6127559). The reference teaches similar 19-nor vitamin D₃ compounds and a method of treating metabolic bone disease. The method of treating a skin condition as presently claimed is neither taught nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
